guards asked for tandems to be pushed back. Lock on trailer tandems did not work. Herbert pulled the tandem handle and had to hold it while I pulled the truck forward to slide the tandems back. The tandems started sliding then caught pulling Herbert off balance stepping into the tire path, causing over his foot and ankle. He yelled "back up, back up" and as fast as I could I got the truck into gear and got the tire off of his foot. I called 911 as soon as I got out of the truck.
